ASTIGMATISM.

What It Is, and How Corrected.

Astigmatism or Irregular Vision is one of the most common of all the refractive errors. It is due to the irregular curvature of the film known as the Cornea. Of course no instrument is sufficient to correct it, but in the hands of a thoroughly efficient and competent Eye specialist the ophthalmometer reveals the exact condition of the eye in a way that nothing else can. If your eyes need attention have DR. J. T. JOHNSON to put them under this wonderful instrument. Office hours 8:30 to 12:30; 2 to 6. 302½ S. Elm St.

A COSTLY SCHEME.

But Dr. Burbank Is Determined the People Shall Know Him.

Dr. Burbank, the eminent ophthamologist of Hartford, Conn., who has recently located in our city, has an ad on the fourth page of today's Telegram which cannot fail to attract the attention of everybody, and especially those of defective eyesight. Dr. Burbank has only been in the city a few weeks and is determined that the people of this section of the state shall know more of him and his work, and he makes a remarkable offer, which will begin tomorrow morning and continue for the balance of this week.

This is no wild-cat advertising scheme. Dr. Burbank comes with the highest recommendation and is specialist of the highest order. This advertising must necessarily cost him several hundred dollars, but the Dr. is not standing on the cost.

THE PHILIPPINE SITUATION.

No New Developments Occur To Vary The Monotony.

REVOLT IN THE REBEL ARMY.

Filipino Generals Luna and Mascardo Quarrel—A Serious Affair Was Averted.

By Cable to THE TELEGRAM.

Manila, May 8—The army gunboats which started up the San Fernando river for Guiagua yesterday to establish a base of supplies for the troops engaged in the northern campaign, returned today, McArthur having failed to connect with the expedition. The gunboats found the rebels entrenched at Sosmoan and Guagua, the water fronts of those towns. The vessels steamed by the works, shelling the occupants and driving them from their cover. Landing parties in boats entered both towns, capturing at Sosmoan a Spanish captain in uniform, ostensibly a prisoner in the hands of the rebels, and also a native officer. At Guagua the town and a small gunboat were found burning, the natives evacuating the place in consequence of the bombardment. A number of Filipino flags were captured at Sosmoan and a quantity of arms, chiefly bolos and bows and arrows. The expedition will probably return up the San Fernando river after being reinforced by the "Delight," a recently-purchased light Spanish steamer.

CLASH BETWEEN REBEL LEADERS.

Manila, May 8—The demoralization of the Filipino army has culminated in an open revolt between General Mascardo and General Luna, the second in command under Aguinaldo. Aguinaldo has ordered a court martial to try Mascardo. Luna sent orders to Mascardo at Bacalor to hurry up reinforcements to him just before the battle of Santo Tomas. McCardo flatly refused to obey the order and sent back work to Luna that he would only take orders from Aguinaldo. Luna immediately selected fifteen hundred of his best troops and started to Bacalor to enforce his order. Arrived there, Mascardo again refused to obey the order given by Luna. Both armies formed line for battle, but before opening Luna gave Mascardo one more chance. Mascardo still positively refused but consented to leave the question to Aguinaldo. This avoided hostilities. Luna appeared before Aguinaldo, who immediately ordered a court martial.

INSURGENT ARMY DIVIDED.

Manila, May 8—The insurgent forces have been divided, one body under General Mascardo going west of San Fernando, the other in command of General Luna, moving north. Both these leaders lay claim to surpreme command of the Filipino army. Luna will probably fall back to Terlae, and thence move toward San Isadore.

McArthur will probably retain San Fernando as a base of operations, sending out detachments as necessary.

A SPEEDY COLLAPSE

Of the Insurrection in the Philippines Looked For.

Washington, May 6—The officials of the state and war departments are looking for a speedy collapse of the insurrection in the Philipines. Not only is this expectation based on the private advices that have come from the Philippine commission, is to the negotiations that have been going on between that body and the insurgent representatives, but also upon the successful development of McArthur's and Lawton's campaign. So far as the commissioners' reports are concerned they indicate that the insurgents have at least recognized the inevitable break-down of their struggle, and are simply striving, by protracting their resistance to secure the more liberal terms possible in the erection of a government in the Philippines. They have not in any diplomatic sense acknowledged the sovereignty of the United States, but have recognized the physical domination of our military forces, and while they have talked more or less of independence, even at the last moment, without doubt they will accept readily any proposition looking to a protectorate. The president's instructions, however, are clear on this point, and the commission understands that it is to take no action in a way of making promises that will deprive congress of a free hand in disposing of the future of the Philippines.

It is believed that an animating purpose in the Filipino representation is to make sure that whatever form of government is adopted will afford lucrative and influential places for the many ambitious Philippine leaders. The admistration sees nothing in this aspiration irreconcilable with a firm government over the islands by the United States, the opportunity for the Filipinos being found in a liberal provision for municipal and even provincial native government in the islands.

United States officials properly distributed throughout the islands in supervisory capacity, charged to interfere as little as possible with local affairs as long as they are conducted without abuses, and a few garrisons of troops at strategic points supported by a naval contingent, it is thought by officials here, may prove to be all that is necessary for the effective maintenance of the United States sovereignty over the islands, while meeting the native aspirations for home rule. The Philippine commission has been instructed on these points and President Schurman especially, is sanguine of the commission's ability to bring about the acceptance of these conditions by the insurgents.

THAT SLANDER MUDDLE.

A New Case Made Out and Tried Before 'Squire Wolfe Today.

The state vs. Cox, slander case, from near Jamestown, came up before 'Squire Glascock this morning. It will be remembered that a case of the same title and the same parties interested was continued last week until the 18th inst. The prosecuter was not satisfied and made another case. 'Squire Glascock refused to continue the case this morning and it was removed to 'Squire Wolfe who bound the defendents over on bond of $100.

It appears from the evidence that the libellous letters were written by Cox's wife. There were about thirty witnesses this morning and some of the evidence was, to say the least, indecent. Bynum & Taylor represented the state and Cols. John A Barringer and James T. Morehead, appeared for the defendants.

DEATH OF MRS. WHITNEY.

She Passed Away in New York City Yesterday.

New York, May 6—Mrs. Wm. C. Whitney, wife of the former Secretary of the Navy, died shortly before 1 o'clock this afternoon. The change for the worse in Mrs. Whitney's condition came on last Tuesday, and it became evident to her physicians then that the end was not far off.

Mrs. Whitney was thrown from her horse while fox hunting in Aiken, S. C., on February 21, 1898. She tried to pass under a low bridge, but struck her head on a beam and fell to the ground. She was unconscious when picked up. She was placed in a plaster cast and remained in it for a long time. Everything possible was done for her, but she remained absolutely helpless until she died. She was completely paralyzed from the neck down.

Mrs Whitney was the second wife of ex-secretary of the navy Whitney, and he was her second husband, her first husband having been Captain Randolph, of the British navy.

The funeral services will be held in the Garden City, R. I., cathedral, probably on Monday. Bishop Littlejohn, of the diocese of Long Island, will officiate. The entire Whitney family, including Harry Payne Whitney and his wife, was at her bedside when she died.

Ladie's Common Sense Oxford ties, good ones, made for solid comfort and durability, $1.50, $1.25 and $1.00 at Thacker & Crockmann's.

THE NORTH CAROLINA CENSUS

Efforts to Give Appointments to Both Parties.

DIVISION IS NOT TO BE EQUAL

However, and If the Democrats Get Nothing They Need Not Be Disappointed.

Special to THE TELEGRAM.

Washington, D. C., May 8th, 1899.—Senator Pritchard, of North Carolina, has recommended for appointment Mr. O. F. Poole, as Supervisor for the Eighth district of the State. The appointment will be made, and the Senator's recommendations, it is said, will be observed in other appointments also. Director Merriam is anxious to get the names of the candidates recommended by the several congressional delegations for Supervisors as soon as possible, and after they are submitted to him the appointments will follow quickly. At the Census bureau, it is said, that in the States which are represented by Democratic Senators, the appointments of Supervisors will be equally divided between the two political parties. This applies, of course, to Virginia, South Carolina, Georgia, Mississippi, and nearly all of the Southern States. In North Carolina efforts have been made to secure a division of the appointments, the minority basing their claims upon the fact the one of the Senators is not a republican. While it can be stated that the appointments in the Old North State will not be equally divided between the two political parties, as in the case of other Southern States, the Democrats from North Carolina are still hoping that several of the Supervisors may be Democrats.

According to the Virginia politicians in Washington, not much thus far has been accomplished in the way of the selection of the Supervisors from that State. The leaders of the two parties during the past week have been trying to reach an agreement as to which of the districts shall be given to the Democrats, and which shall be given Republican Supervisors. It is thought that an agreement will be reached before long.

Representative Jones and a contingent of Virginia democrats will leave Washington today for Richmond to be present at the May conference. Congressman Jones is of the opinion that the gathering at Richmond will be a notable one and says that the success of the conference is assured. In spite of the persistent efforts of the opponents of the movement for the election of United States senators by the people, to make it appear that the Richmond convention is for the purpose of antagonism to any particular candidate has not been dreamed of. Mr. Jones, and nearly all identified with the movement agree that the reelection of Senator Marvin is practically assured, and no candidate, it is said will be brought out against him by this meeting, as such is not the purpose of the convention.

Among Virginia democrats in the city there is said to be much opposition to the renomination of Congressman Lamb, of the Richmond district. Among those who, it is said will contest the honor with him are Ex-Representative George D. Wise, and State Senator Mumford, both of whom if they enter the race will have much support. Many incline to the opinion that Mumford will succeed Col. Lamb in the next house, as he is an earnest Martin man, while the Richmond congressman and Capt. Wise are both advocates of the Richmond convention. It is said a majority of the Richmond democrats are opposed to the May conference and this fact may work injury to the chances of Col. Lamb for renomination.

Many Washington people have left for the south during the past few days to attend the Raleigh celebration at Wilmington, and the Confederate reunion at Charleston, South Carolina. Monday afternoon a large number of people will leave for the reunion. Among them will be General Joseph Wheeler and Miss Hume, the latter being the sponsor for the District of Columbia Confederate veterans.

Among well known southern people in Washington is Hon L. E. Parsons, of Alabama. Mr. Parsons says that he believes that the Alabama legislature will enact a new election law patterned after the North Carolina law.

New postoffice has been established at Congo, Wilkes county, North Carolina. Alfred M. Davis has been commissioned postmaster.

Mr. Schenck's Condition Serious.

The Telegram regrets exceedingly to learn that the condition of Mr. D. Schenck, Jr., who has been sick for several days, has become critical. His physicians have diagnosed the case as appendicitis and an operation will probably be performed by Drs. Beall and Wilson tonight. The many friends throughout the state of the bright and talented young attorney sincerely hope that the operation will be successful and that he will soon be well.

MONDAY, MAY 8, 1899.

We are surprised that no one has recommended Gen. Funston for the presidency.

It appears that the Philippines rucus is approaching its end. The rebel leaders admit that they have been sufficiently amused and are ready to assume the American yoke, if we promise them fair treatment.

From the present indications, the next thing on the program will be a set-to between Uncle Sam and the greasy Cubans. International scraps are likely to continue to follow each other in rapid succession these blustry, reaching-out times.

In yesterday's Charlotte Observer Mr. H. E. C. Bryant has a lengthy write-up of the Pomona Hill Nurseries. We regret that we haven't the space to reproduce this interesting article of a very interesting place. The business of the J. Van Lindley Nursery Co. is an industry of which the State, no less than Guilford county, feels proud.

"The man who says there is no music in Dixie has no music in his soul."—Farmville Herald.

That's hard on Theodore Thomas. Let us be charitable and conclude that he has no soul.—Norfolk Landmark.

Don't be too hard on Mr. Thomas. Allow him a soul, and with music in it. He is only suffering with a surfeit of certain airs, and was doubtless moved, at Bull Run or some other place, in the past, by that concord of sweet sounds.

It will be sublime to take a peep through that telescope being built for the Paris Exposition. The power of the glass will be so tremenduous as to bring the moon within half a dozen miles of the earth. Then with one of those new airships which ride on the winds so beautifully, the imperialistic administration at Washington can send over a crew of "our boys" and plant the stars and stripes on the old planet before any of the other dull powers tumble to our scheme. If they find conquest impracticable, a load of green cheese might be brought away.

At the New England conference of the A. M. E. Zion church, in its session at New Haven, Conn., last Saturday, an address was delivered by Right Rev. Bishop Walters, of Charleston, S. C., president of the Afro-American League, on "The Condition of Negroes in the South," during which he said: "In spite of all the present lynchings, the thing for the good negroes to do is to trust in God, make himself solid with the better class of white people and await the result." This advice, from one of the most eminent negroes of America, cannot fail to have an immense weight with the good negroes of the south. Let them keep themselves "solid" with the white people, and the white people will stand to them in their hour of need, as they have done.

"A word to the wise is sufficient" and a word from the wise should be sufficient, but you ask, who are the wise? Those who know. The oft-repeated experience of trust-worthy persons may be taken for knowledge. Mr. W.M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in ths drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best. For sale by C. E. Holton.

BIRD FLIGHT.

They flock upon the hazy air,
Silent of note and purposeful of wing,
Nor gossip of the nesting time
Disturbs their rhythmic, air born swing.

Across the dying fields light shadows fall
That, for a moment's space, obscure the sun;
Then swift—a graceful troop—they wing their way,
Pursued in haste by some belated one.

Now all the stubble land turns twilight gray
A-hum with mystic runes and harvest rills.
Above the watching world a tiny speck
Grows pale and fades against the southern hills.
—Elizabeth Alden Curtis in Philistine.

WAR AND MATRIMONY.

Cupid Is Much the Busiest In Times of Peace and Prosperity.

"There is a close connection between marriage and the price of wheat, beef, pork, beans, corn and other things which go to make up the main portion of human food," writes Professor D. R. McAnally of "The American Girl's Chances of Marriage," in The Ladies' Home Journal. "As the prices of these commodities go up the number of marriages goes down. From 1851 to 1854 times were good, food was cheap, and the marriage rate in Massachusetts went up to 26 per 1,000. Between 1855 and 1859 there was great depression of trade, and in 1858 the marriage rate went down to 17 per 1,000. The years from 1873 to 1879 form another period of depression. Factories were closed and manufacturers of every kind suffered severely. In one year, at least, crops were short and the prices of food were high. The result was immediately seen in matrimony, for in 1874 the number of marriages went down from 21 per 1,000 of the population to 18, and in 1876 and the following two years declined to 15 per 1,000—a tremendous falling off from 26 per 1,000, the figure attained in 1854, which was the banner year in the state of Massachusetts for matrimony.

"Almost as unfavorable as that of hard times is the influence of war upon matrimony. Whenever Mars is in the ascendant Cupid's stock goes down. During the civil war the number of marriages in this country fell off from 20 per 1,000 of population to 17 per 1,000, and immediately after the civil war was ended, in 1865, the number rose to 22 per 1,000, declining in 1869 to 21. The woman who is looking for a husband has a better chance of getting one just before or just after a war than at any other time."

With the Fading of Beauty.

A 16-year-old girl imagines that she is an angel, and never gets over it. After a woman gets old she thinks of how she was admired and complimented in her youth and feels that some great wrong was done her because she did not remain as pretty as she was at 16. If she is married, she is apt to lay the blame on the brutality of her husband; if she is an old maid, she lays it on her father, who was poor, and thus forced her to work, which resulted in a stooping figure and harsh features. A man never has this experience. He is at his worst at 16 and does not reach his best until he is 26 to 30. By that time he has acquired a little sense, and never mistakes a compliment for the truth.—Atchison Globe.

Sunday School Gems.

Stories of strange and amusing answers given to examination questions are frequently told, but we do not so often see recorded the equally surprising answers given by children in Sunday schools, and yet they are frequently original enough.

A teacher, lately wishing to turn the young idea toward the mission field, asked, "What are good men called who leave their homes and go to foreign lands to teach the heathen?"

"Prodigal sons," was the prompt and triumphant reply.

A class of boys when asked, "What were the ten plagues?" answered with more fervor than gallantry, "The ten virgins, sir."—Westminster Gazette.

Have No Use For Cents.

Pennies are not used by the banks of New Orleans in the payment of checks. If a check, for example, is drawn for $62.18, the holder receives $62.20. If the amount is $62.17, he gets $62.15. The split is made between the second and third cent, and the system, which has been in vogue for many years, is very rarely the subject of any complaint. It makes an exact balance of coppers at the end of the day's business rather unlikely, but the doctrine of averages operates to even things up to within a few cents. In the long run about as many checks break on one-half of the nickel as on the other.—New Orleans Times-Democrat.

Money Making Indians.

The Menominee Indians, in northwestern Wisconsin, are making as much money in lumber operations as are the Osages at farming. By the sale of pine logs in years past the 1,300 men, women and children have accumulated a tribal fund aggregating $1,000,000, which is still growing. The tribe expends about $75,000 a year in logging operations and clears from $50,000 to $100,000 annually.

Detecting Flaws In Metal.

To detect hidden cracks opening from the surface of metals the surface is first moistened with kerosene and is then dried off with a cloth. It is then coated with chalk. After a little while the oil works out of the little cracks and stains the chalk. A sort of diagram of the hidden fissures and defects is thus produced.

Professor C. Lloyd Morgan has in his book on "Habit and Instinct" advanced the theory that, while the calls and alarm notes uttered by birds are probably due to simple instinct, their songs may be traditional—that is, handed down from generation to generation and perpetuated through the faculty of imitation.

The Sure La Grippe Cure.

There is no use suffering from this dreadful malady, if you will only get the right remedy. You are having pain all through your body, your liver is out of order, have no appetite, no life or ambition, have a bad cold, in fact are completely used up. Electric Bitters is the only remedy that will give you prompt and sure relief. They act directly on your liver, stomach and kidneys, tone up the whole system and make you feel like a new being. They are guaranteed to cure or price refunded. For sale at C. E. Holton's drug store. Only 50 cents per bottle.

PRESENTATION OF THE GUN.

Capt. Coghlan Formally Turns Over The Spanish Trophy.

Wilmington, May 6—One of the most interesting ceremonies in connection with the presence of Captain Coghlan and other officers of the United States cruiser Raleigh, in this city today, occurred in the parlors of the Orton House, this afternoon. It was the formal presentation of the Nordenfeldt gun to the city of Raleigh. It was noted in yesterday's dispatches that the informal presentation had been made. This morning the delegation of citizens from the city of Raleigh, the officers of the cruiser Raleigh and a large company of Wilmingtonians, assembled at the hotel to witness the ceremony. In presenting the cannon Captain Coghlan said:

"I take this occasion, gentlemen, to formally present to you, here in the presence of my fellow-officers a gun recovered from the Spanish cruiser Reina Christiana. In doing so, we do not claim that we took any more part than the other vessels of the American squadron in the destruction of the Spanish fleet.

"Raleigh is an inland city, and the cruiser bearing her name can never visit her people. It is for this reason that we present this gift. We desire that the city might know that all on board always had in mind that fair city with whose name she has been honored. Hence the trophy.

"We hope you will accept it in the spirit in which it is given; not from its intrinsic value, but as an expression of love and esteem of the officers and crew for the people of the city that has given the cruiser her name."

The speech of acceptance on the part of the city of Raleigh was delivered by R. N. Simms, Esq., an able junior member of the Raleigh bar.

This afternoon an elegant dinner complimentary to the officers of the Raleigh, was given at the residence of Mr. James Sprunt, British vice consul. Tonight the Cape Fear Club is entertaining the visiting heroes at an elaborate reception. The Raleigh will probably sail for Charleston Monday afternoon.

A NEW MILL FOR WILMINGTON.

E. C. Holt at the Head of a Company to Build a Great Factory.

Wilmington, May 6—The erection of another big cotton factory in this city by a $250,000 stock company is assured. Work is to commence on the buildings within 30 or 60 days, and the plant is to be completed and ready for operation by January 1, 1900. Mr. E. C. Holt, a member of the Holt family, famous throughout the south, for their success in cotton manufacturing and owning many mills in the state, is at the head of the enterprise. The company has purchased 100 acres of land, and the buildings are to be designed so as to admit of enlargement. It is the purpose of the company to at least double the capital stock within a few years. For the present they will operate 10,000 spindles and 500 looms, giving employment to 300 operatives.

If you suffer from tenderness or fullness on the right side, pains under shoulder-blade, constipation, biliousness, sick-headache, and feel dull, heavy and sleepy, your liver is torpid and congested. DeWitt's Little Early Risers will cure you promptly, pleasantly and permanently by removing the congestion and causing the bile ducts to open and flow naturally. They are good pills. Howard Gardner.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children. —W. A. CANCER IS DEADLY!

Results Fatally In Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple. or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

MRS. S. M. IDOL.

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—MRS. S. M. IDOL, Winston, N. C.

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.

Seven Sutherland Sisters

18 Desbrosses Street, New York City.

A Sarcastic Congressman.

Ex-President Benjamin Harrison at a banquet told the following story on himself:

"Judge Martindale has recalled the time when I was the very youngest and very smallest elder, which reminds me of an occurrence at Washington when a number of very anomalous bills for public improvements were introduced. I decided to veto some of them. I remember that there was a New York representative who had an interest in an appropriation of $350,000 for a public building on the Hudson. A friend learned from him that it had been vetoed. 'See the president,' suggested his friend. The representative responded that that was his intention, and next day went to the White House, where he was informed by the secretary that the president could not be seen. 'Good gracious!' exclaimed the representative. 'Has he got so small as that?'"

Cornish Diamonds.

"Please God," said Aunt Mary Bunny, "if I live till this evenin and all's well I'll send for the doctor."

"I shan't name no names," said Uncle Billy, "but Jack Tremenheere's the man."

John Carter, the famous smuggler of Porthleah, went throughout Cornwall by the name of the King of Prussia. A Mousehole man, on hearing news of the real king of Prussia's defeat at Jena, remarked: "Misfortunes never come single. I'm sorry for that man. Not more'n six weeks ago he lost 300 keg o' brandy, by information, so I'm towld."

All the crew had been saved, but one poor fellow was brought ashore unconscious. The curate turned to the bystanders:

"How do you proceed in the case of one apparently drowned?"

"S'arch his pockets."—Cornish Magazine.

Willow Baskets.

The question is sometimes asked why some willow baskets soon become brown and discolored while others keep white so much longer. Those that discolor are made from willow from which the bark has been removed by steaming. The imported baskets, made where labor is not such a big factor in cost, are woven from willows that have been peeled with knives, and these hold their clean white color to the close of their existence, which is a much longer period than that of the domestic product. If one only knew how to distinguish 't'other from which," now!

Rheumatism Cured.

My wife has used Chamberlain's Pain Balm for rheumatism with great relief, and I can recommend it as a splendid liniment for rheumatism and other household use for which we have found it valuable.—W. J. Cuyler, Red Creek, N. Y.

Mr. Cuyler is one of the leading merchants of this village and one of the most prominent men in this vicinity. —W. G. Phippin, Editor Red Creek Herald. For sale by C. E. Holton.

A monument was unveiled yesterday at Cincinnati in honor of Captain John J. Desmond, of the militia, who was killed while defending the jail against a mob.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter nauseating tonics. Price, 50c.

At Mount Victory, O., yesterday, Ike Bird shot and killed Deputy Sheriff Frank Morrison, by way of resisting arrest, and then blew out his own brains.

People who have once taken DeWitt's Little Early Risers will never have anything else. They are the "famous little pills" for torpid liver and all irregularities of the system. Howard Gardner.

August Smith, an insane gardener at Berlin, Wis., fatally hacked his wife with an axe and tried to kill himself.

Pneumonia, la grippe, coughs, colds, croup and whooping-cough readily yield to One Minute Cough Cure. Use this remedy in time and save a doctor's bill—or the undertaker's. Howard Gardner.

Mexican authorities deny that that country seeks control of any Central American Republics.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. 'Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman. Trial bottles free at C. E. Holton's drug store. Regular size 50c and $1. Guaranteed or price refunded.

A rich man died the other day. He died in the very midsummer of life, and he left his family $1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."

The symptoms of a disordered condition of the stomach and the organs of digestion and nutrition are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dingy complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness, despondency. No one person will have all these symptoms at once, but any one of them calls for prompt aid for the suffering stomach.

The restoration of the stomach, digestive and nutritive organs to a condition of sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses from that dose until the functions of the stomach and its related organs are in healthy operation. Then the nerves are quiet, the appetite healthful, the sleep restful, the eye bright, the complexion clear. In one word the body is in a condition of perfect health.

"I was troubled with indigestion about two years," writes Wm. Bowker, Esq., of Julietta, Latah Co., Idaho. "I tried different doctors and remedies but to no avail, until I wrote to you and you told me what to do. I suffered with a pain in my stomach and left side and thought that it would kill me. Now I am glad to write this and let you know that I am all right. I can do my work now without pain and I don't have that tired feeling that I used to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two vials of his 'Pleasant Pellets' cured me."

Don't let the dealer sell you a substitute, if you want a cure. Insist on having "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets surpass all complexion powders. They make the skin healthy and the complexion clear.

A negro offered a 28-inch Rambler bicycle for sale in Graham recently. It is believed the wheel was stolen here. The negro left on the dirt road for Durham. A NICE QUICK JOB.

Warnersville Negro Rides Into the Country and Steals Hams.

The eagle eyes of Greensboro's police force are now penetrating every shady nook and corner in the city, in eager search for the champion "rapid transit" ham thief of the century. On last Friday night the gentleman in question borrowed a horse without the knowledge or consent of the owner, rode seven miles in the country, stole five hams, of twenty pounds each, returned to his home in Warnersville, put the horse in the stable and wrapped himself in slumber, with his head resting on a juicy ham, all with not more than four hours time.

The old darkey who owned the horse noticed that the animal had been driven during the night and was discussing the matter when the man came in from the country in search of his hams. Together they spotted the thief and came after officers. Policeman Whittington and Constable Scott accompanied them back, but the thief had caught on to the racket and fled. The hams were recovered.

THE REV. J. W. STAGG

Preached the Baccalaureate Serman At Guilford College.

A Telegram man had the good fortune to hear the Rev. J. W. Stagg of Charlotte preach the Baccalaureate sermon at Guilford College yesterday morning. It was the finished product of the cultured christian mind and heart. A large and deeply interested congregation filled the spacious auditorium of the Lyon Memorial Hall.

Do You Remember

That about 18 months ago there was a great scurrying around among the little boys of the town after a certain advertisement which appeared in this paper. In substance the ad was to this effect; the boy who would collect the greatest number in a given time, would be presented with a suit of clothes. The boy whose picture appears today in Rankin, Chisholm, Stroud & Rees' ad, was the winner, and got for his trouble a nice double combination suit. Rankin, Chisholm, Stroud & Rees are making you a nice offer today; read their ad and take advantage of their proposition. They will do just exactly what they say.
